

Communication activities in any language

Why not try these fun games at home with your child using your first language? You don't need any technology to have a go at them. Good luck!

Word Rounds

Take it in turns to choose a category and shout out as many words as you can in one minute! Whoever can think of the most for each is the winner.

Granny went to market...

Take it in turns to say "Granny went to market and she bought...". Everyone chooses one thing and the list gets longer as you repeat everything every one else has said and then add your own! The winner is the person who remembers the most.

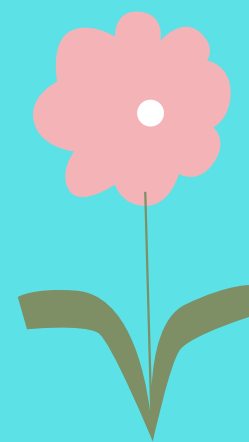

Describe it!

Find a strange picture and then describe it - what can you see, how does it make you feel, what do you think is going on?

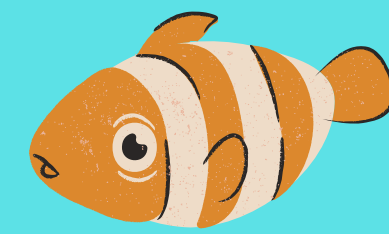

Taboo

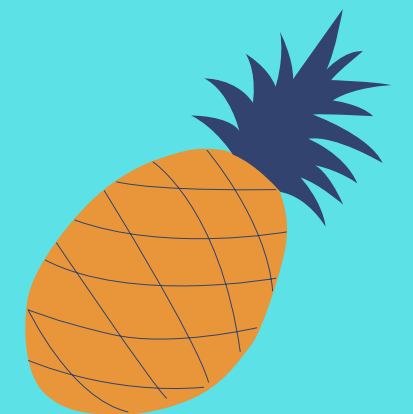

Choose a picture from below or make up your own. Describe it without using the word itself or any of the red words! Can your friend guess what it is?
